

Disrupting The Korea MLM Cartel

A Direct Sales Blockchain Solution

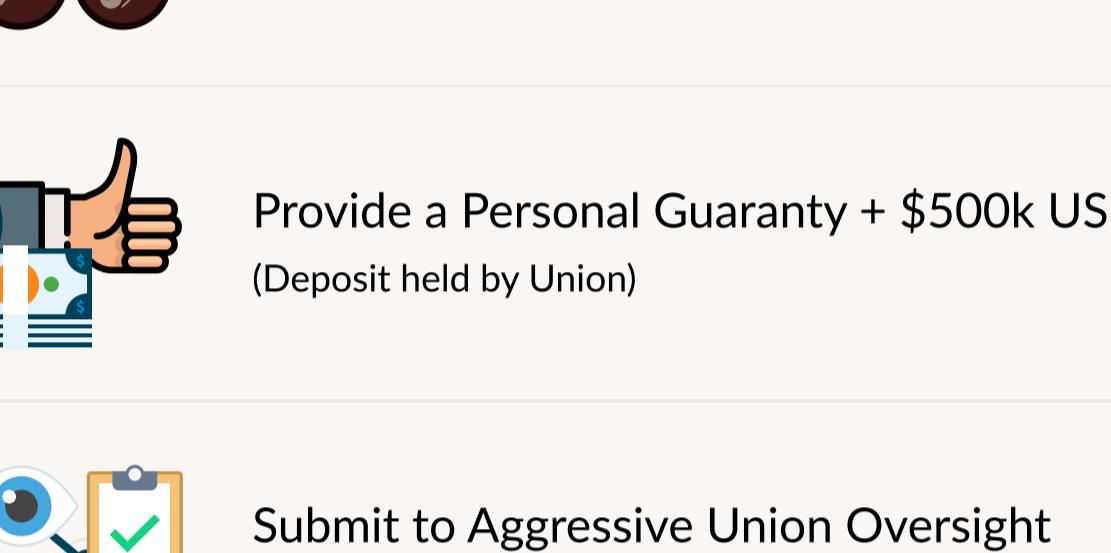

\$17
Billion

MLM Revenue in Korea

3rd Largest Market in 2017

Excessive regulation makes Korea a difficult market to penetrate

A costly MLM License is required before starting any business.

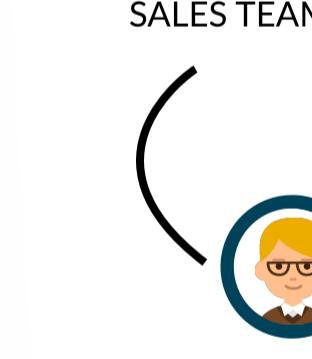

In order to be approved a company must:

Be completely structured in Korea
Office, Bank Account & Legal Entity

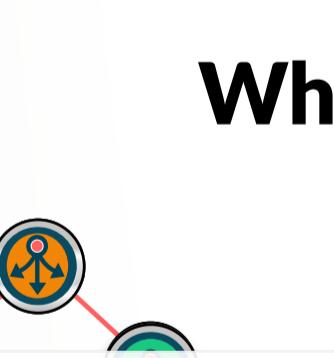

Have a Physical Product For Sale
No services or non-product companies

Have received product approval from the KFDA
(Korea Food & Drug Association)

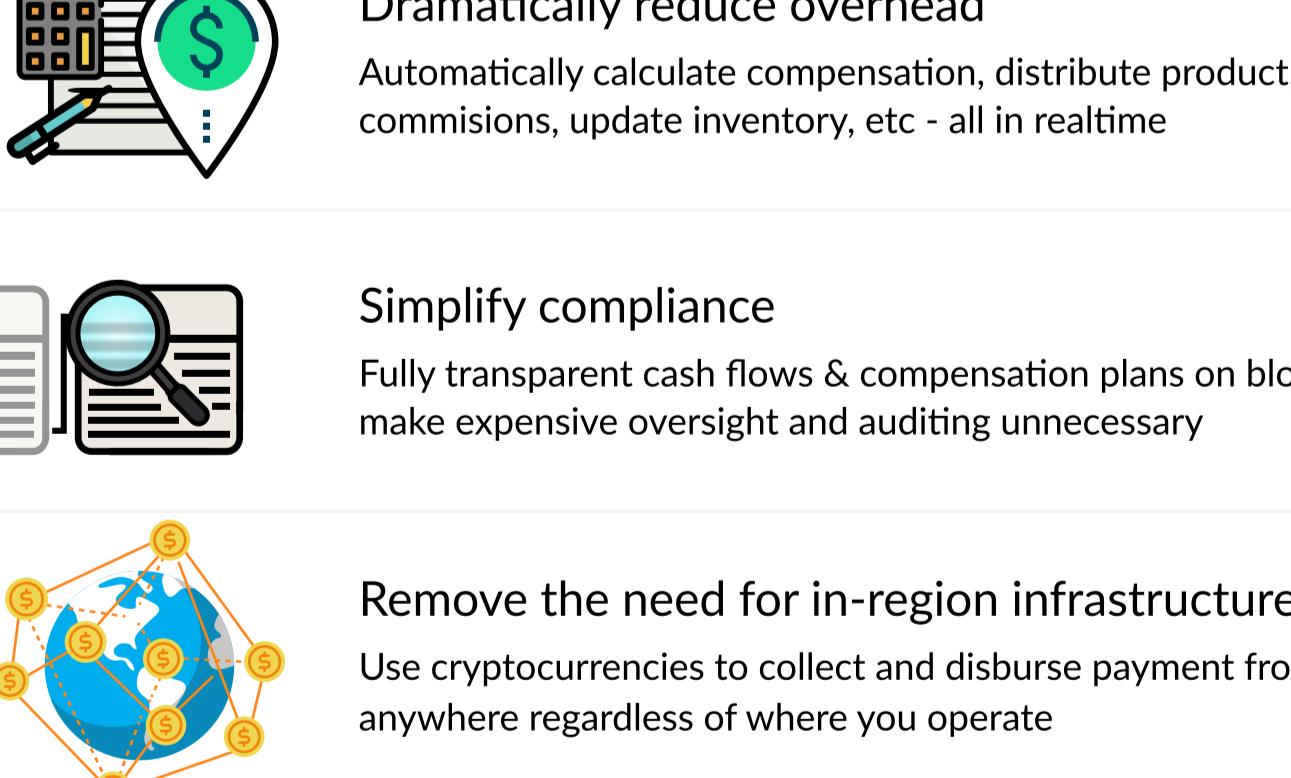

Provide a Personal Guaranty + \$500k USD deposit
(Deposit held by Union)

Submit to Aggressive Union Oversight
Compensation Plan Approval, Inspections & Audits

These requirements make opening in Korea **extremely expensive** or even **impossible** in many instances
